The Mental Health Resource Guide was developed as a project of Washington County Family & Children First Council’s “Access to Mental Health Initiative”. Acknowledging that mental health funding in Washington County is inadequate, a stakeholder’s group convened and determined that information about existing mental health resources would be valuable. A Core Team developed the following mission and vision statements:

MISSION STATEMENT
The mission of the "Access to Mental Health Initiative" is to improve access to available mental health services for Washington County residents.

VISION STATEMENT
All residents of Washington County seeking, or in need of, mental health services shall have available complete and accurate resource information to better access services.

The Mental Health Resource Guide, which will be updated annually, may be reproduced and can be found on the Washington County Family & Children First Council website at www.wcfcfc.org. For questions or to provide additional or corrected information for this guide, please contact Family & Children First at 740–376–7081.

Data provided is for information purpose only, and does not imply endorsement, fitness for use, legal sanction or license, nor in any way seeks to portray anything other than information upon which individuals may freely choose to engage the provider or its intermediaries in seeking desired services. Users of the information should understand that a provider being listed does not guarantee service availability or service delivery to the user and in no way constitutes legal referral.

Red Treehouse Website
www.redtreehouse.org
Redtreehouse.org was created to provide a welcoming and vibrant online community for families and professionals to explore resources to help children and young adults, prenatal through age 25.

School and Community Continuum of Service Website
www.oberlinkconsulting.com/mhmapping

The Washington County Home recognizes that Man is holistic, with a variety of needs. We follow the principles of normalization, holding the belief that all human beings are worthy of being treated with dignity and respect. The Washington County Board of Commissioners also realizes that man's needs are influenced by his past experiences, present perceptions of reality, and future expectations. We recognize that as an individual goes through life, circumstances may arise that prevent him from caring for himself or meeting his needs.

The Mental Health Resource Guide was developed as a project of Washington County Family & Children First Council's “Access to Mental Health Initiative”. Acknowledging that mental health funding in Washington County is inadequate, a stakeholder’s group convened and determined that information about existing mental health resources would be valuable. A Core Team developed the following mission and vision statements:

**MISSION STATEMENT**
The mission of the “Access to Mental Health Initiative” is to improve access to available mental health services for Washington County residents.

**VISION STATEMENT**
All residents of Washington County seeking, or in need of, mental health services shall have available complete and accurate resource information to better access services.

The Mental Health Resource Guide, which will be updated annually, may be reproduced and can be found on the Washington County Family & Children First Council website at [www.wcfcfc.org](http://www.wcfcfc.org). For questions or to provide additional or corrected information for this guide, please contact Family & Children First at 740–376–7081.
